Hyggesfriare möjligheter

Korpmarken - blädning

Asa – omställning till blädning

An aerial photograph showing a landscape covered in snow. Several clusters of dark green coniferous trees are scattered across the white terrain. A prominent, dense cluster of trees is located in the center of the image. The surrounding areas are mostly empty snow with some faint tracks or lines. The overall scene suggests a winter landscape, possibly after a fire or in a cleared area.

Kälmyrbränna – luckhuggning

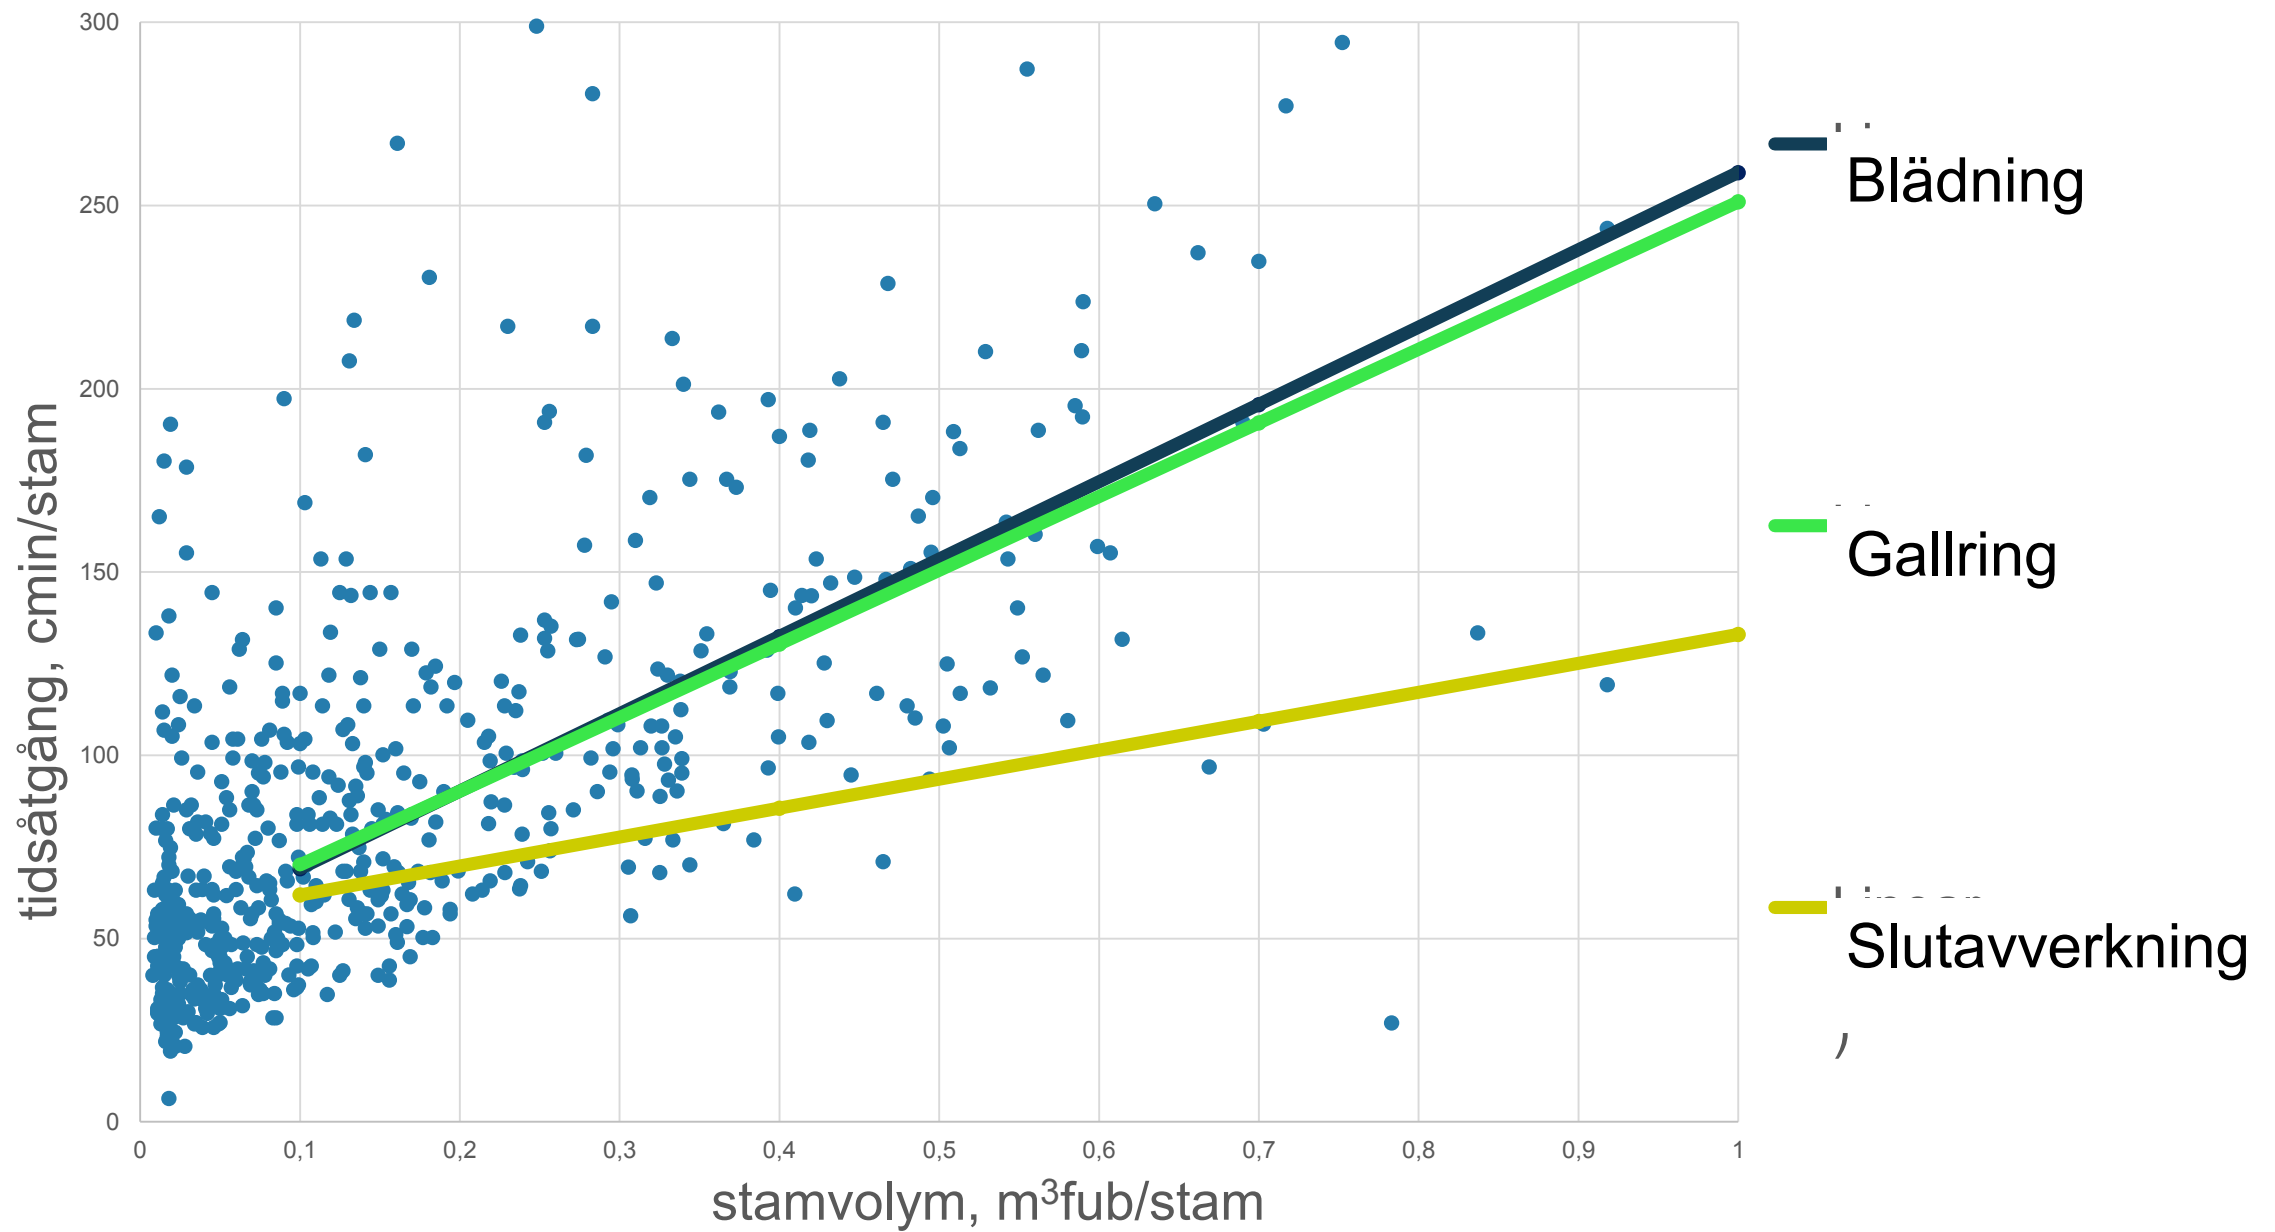

A photograph of a forest scene. In the foreground, there is a large pile of cut logs, stacked horizontally. The logs are light brown and show the circular ends of the trees. Behind the logs, several tall, thin, vertical tree trunks stand prominently. The trees have rough, textured bark. The background is filled with a dense forest of green coniferous trees. The sky is visible at the top, showing a pale blue color. The overall scene suggests a logging operation in a forest.

Örebro – överhållen högskärm

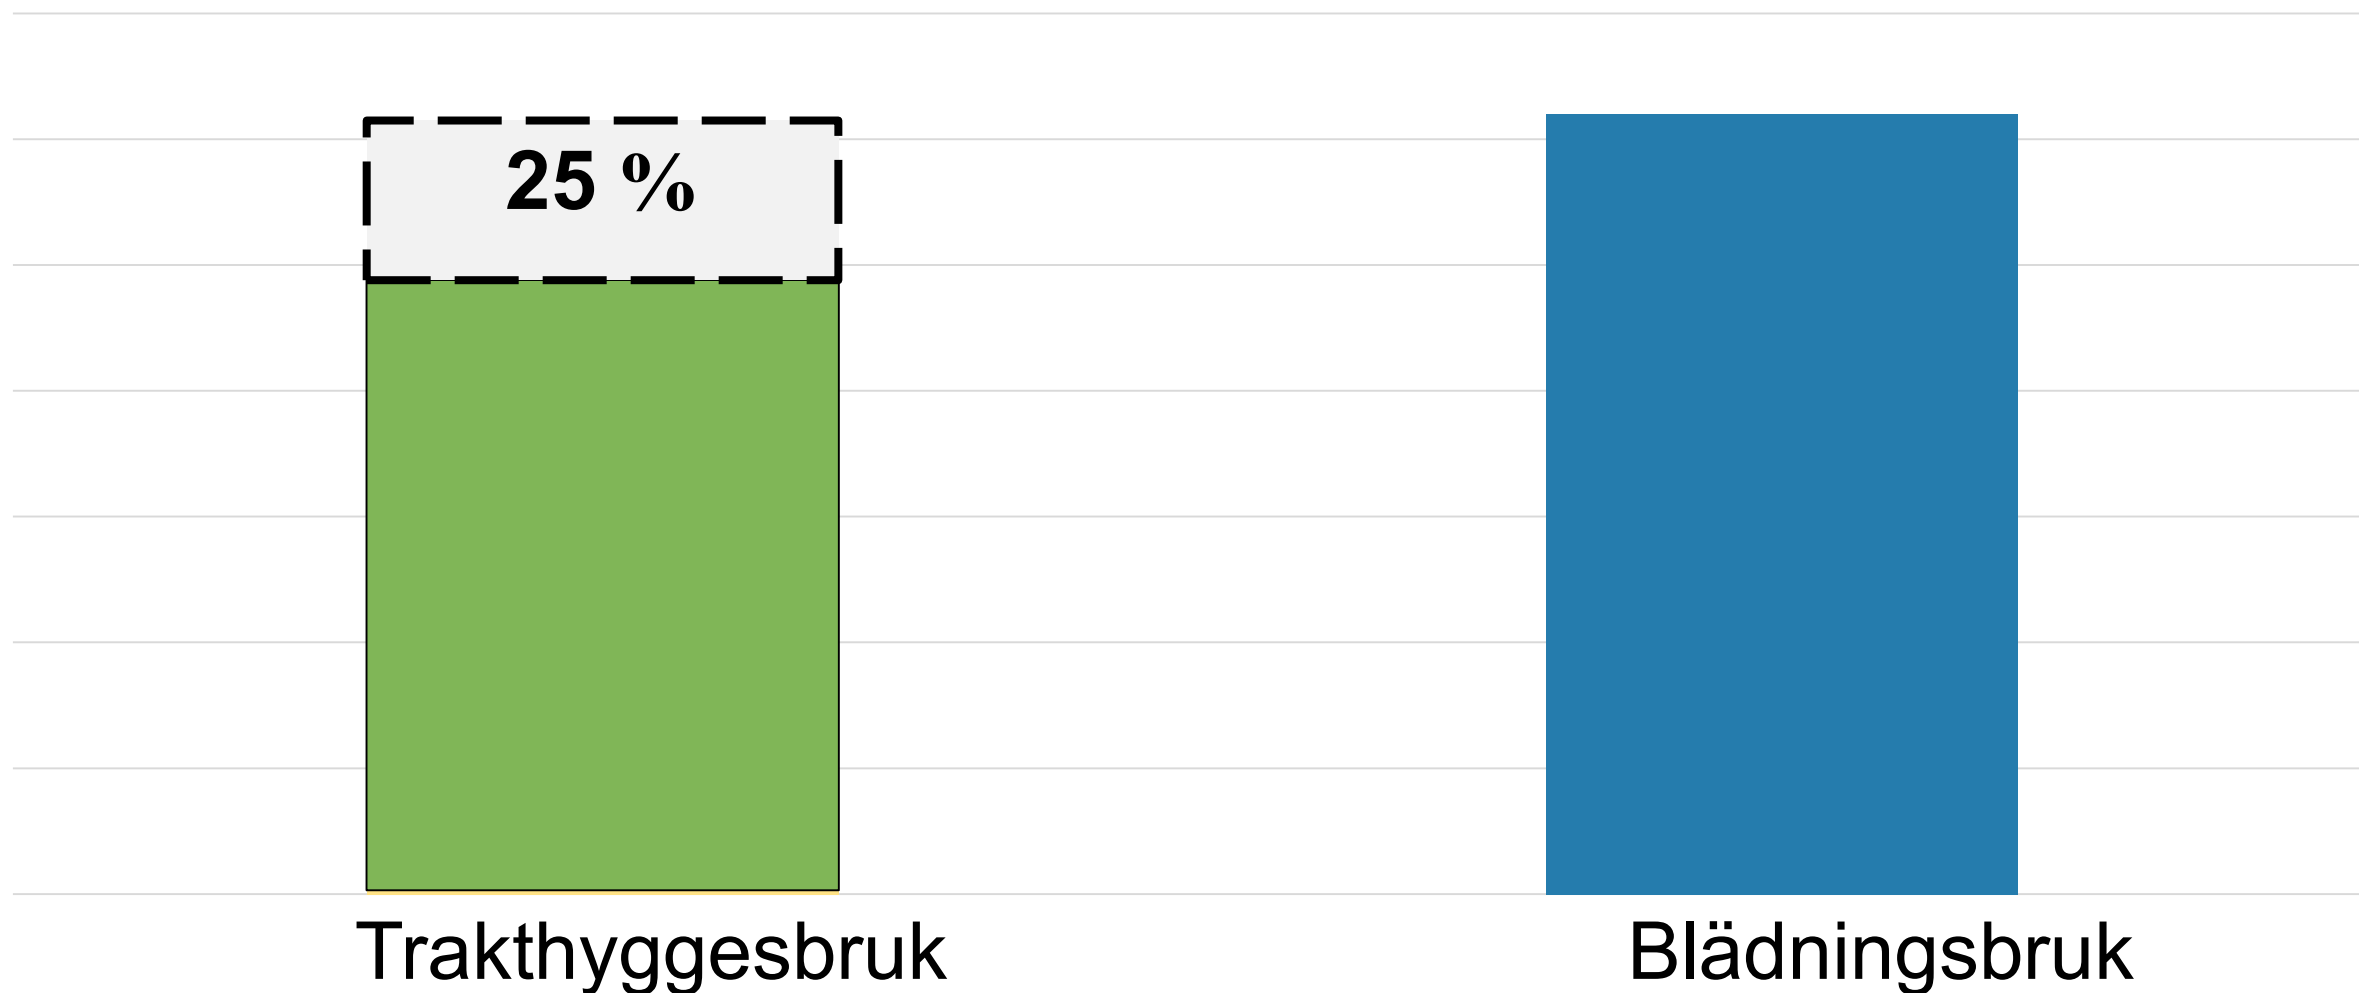

Och sen räknar vi!

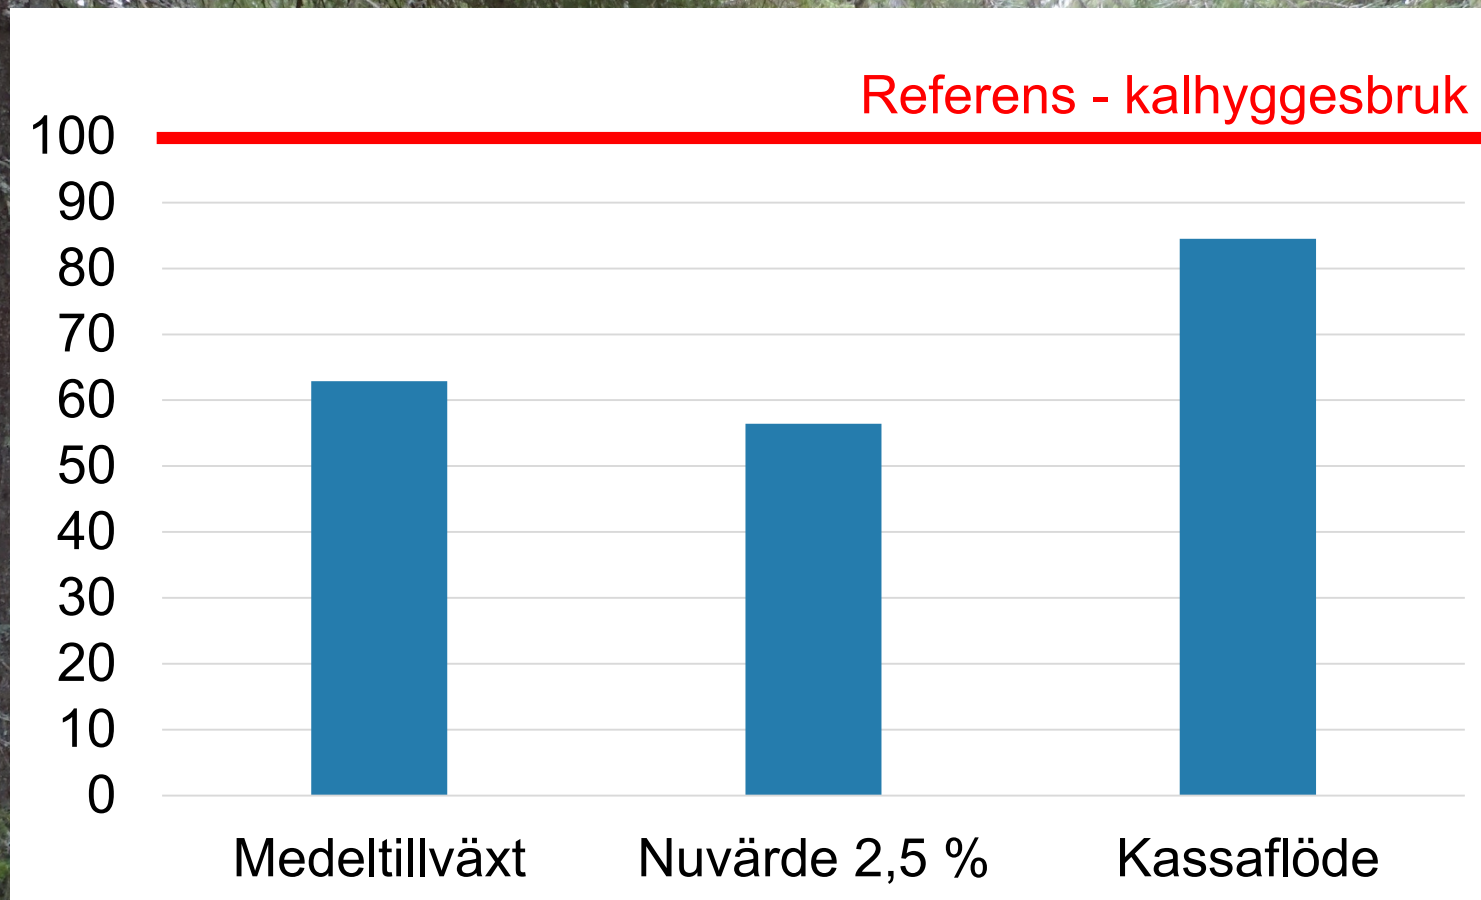

HEUREKA!

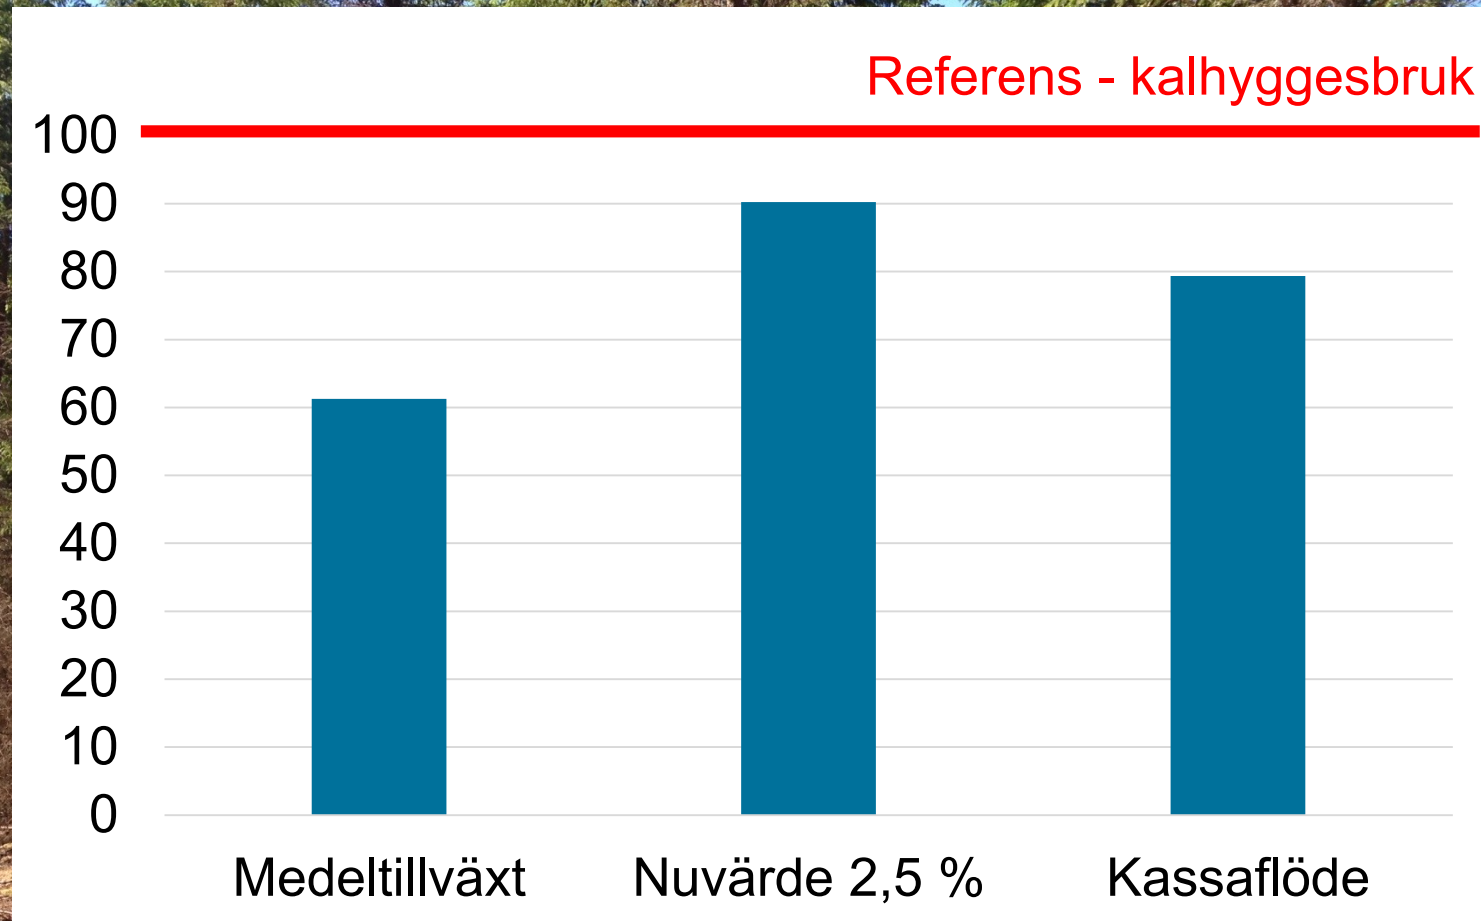

Volymvägd medelkostnad per omloppstid

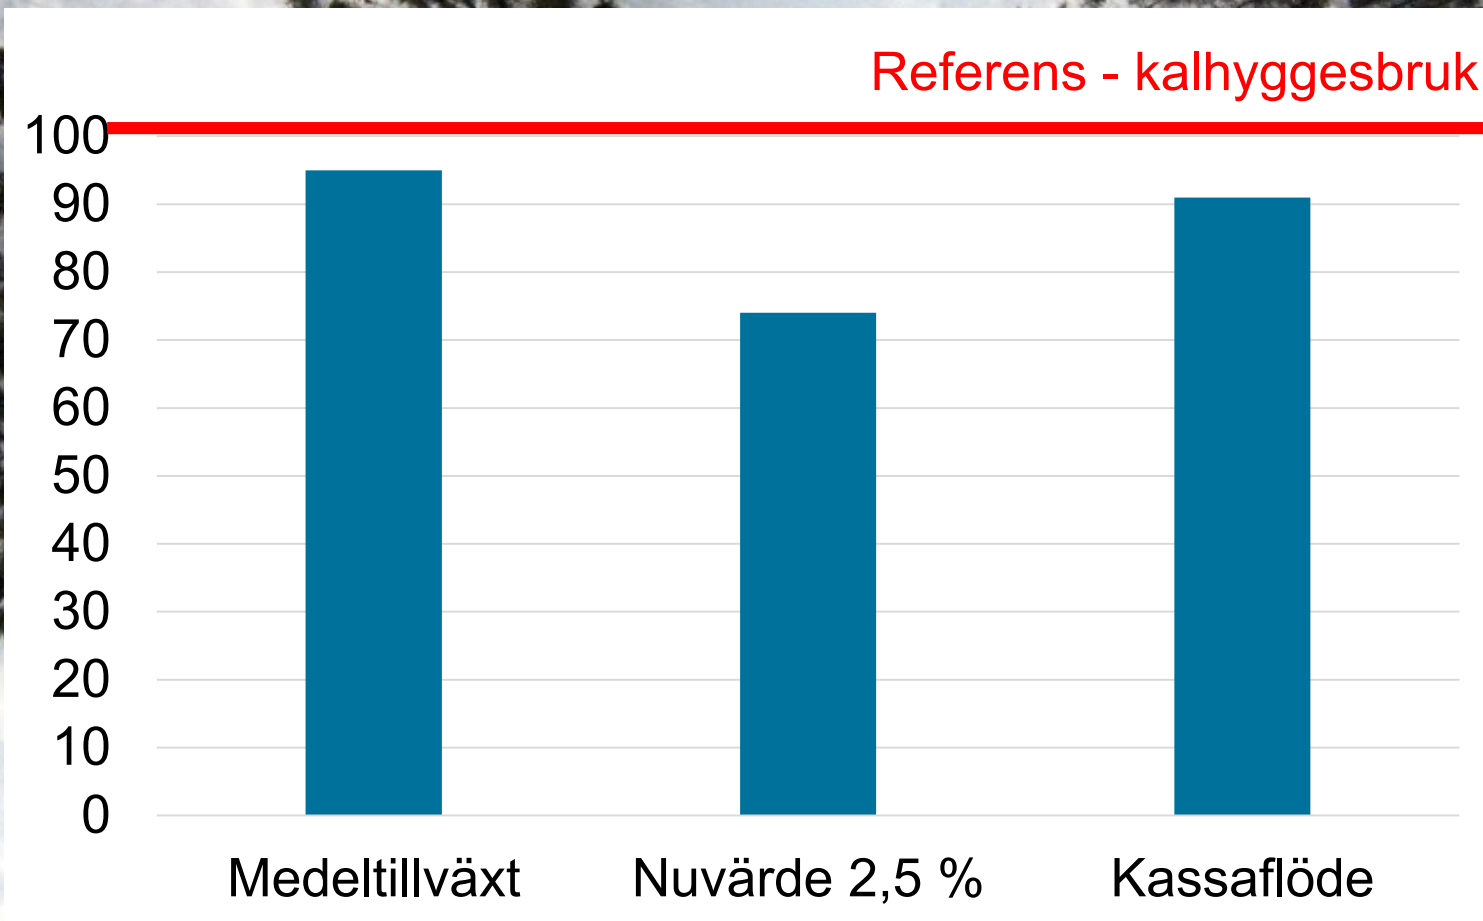

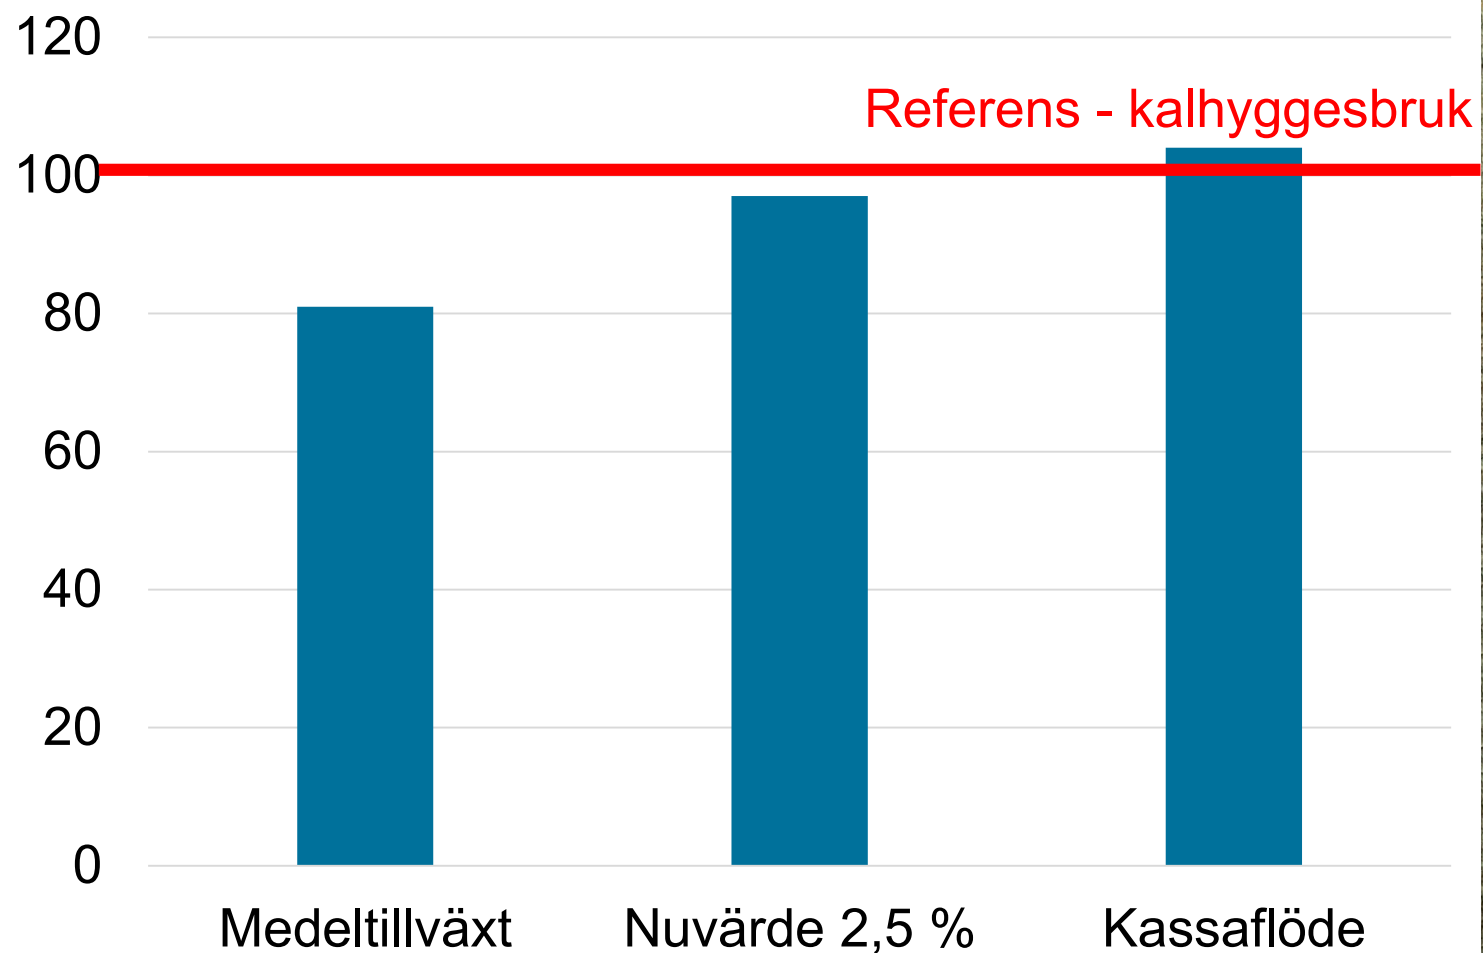

Korpmarken - blädning

Asa – omställning till blädning

Kälmyrbränna – luckhuggning

Örebro – överhållen högskärm

Konsekvenser

- 25 % högre drivningskostnad,
➔ 134 miljoner kronor
- 28 % högre dieselförbrukning,
➔ 2500 m³ diesel
- 30 % lägre tillväxt,
➔ virkesförsörjningsdilemma
